

March 2019

R&D Engineer

Full-time, Galway Office

Summary

Veryan Medical is entering an exciting period of growth and we are recruiting an R&D Engineer with a keen interest in the medical device space. We are looking for a motivated individual with problem solving and analytical skills and an interest in control of electro-mechanical systems.

Responsibilities

- Contribute to ongoing development, improvement and extension of the company's existing technology and intellectual property portfolio through innovation and invention
- Develop an understanding of the disease state and clinical needs, and keep up to date with current devices and technologies
- Create drawings/specifications of prototypes, components and fixtures
- Design, build and operate computer controlled electro-mechanical test equipment
- Develop and perform engineering studies for design verifications and validations
- Write technical procedures, protocols, specifications and reports
- Identify and interact with vendors to obtain engineering materials and equipment
- Commit to ongoing personal development to improve technical skillsets

Qualifications, Experience & Skills

- Bachelor's degree or higher in a relevant engineering or scientific discipline is required but a mechatronic engineering background is advantageous
- Relevant experience working in the medical device industry is advantageous
- Excellent problem-solving skills are required
- Ability to contribute and participate in a dynamic team environment is required but must also enjoy working independently when needed as well
- Good knowledge of mechanical analysis & design
- Excellent oral and communication skills
- Ability to prioritise project tasks and meet deadlines
- Proficiency in Microsoft Word, Excel, and PowerPoint
- Working knowledge of Matlab and Labview (or similar) is preferred
- Experience of computer-aided design and modelling using Solidworks or similar is preferred
- High level of enthusiasm and motivation is required, with the ability to take input from colleagues

To apply, please send your CV and a covering email, outlining why you're the best person for the role, to Jo Graver, HR Manager, email jo.graver@veryanmed.com, quoting vacancy ref V080.
